

COVID19 Vaccination Report

Manitoba First Nations Pandemic Response Coordination Team

There is now an infant COVID-19 vaccine available for children aged 6 months to 4 years in each community. Call your Nursing station or Health Centre for more information.

Date: February 2, 2023

The information describes First Nations vaccines that have been recorded in PHIMS as of February 2, 2023. Since many communities do not have access to PHIMS directly we know many more doses have been administered in the communities but have not yet been recorded in PHIMS. We continue to work to address the delay so that the numbers we report more accurately reflect the excellent work going on in communities.

Total Doses Administered

Total number of vaccinations: **328,424**
