

First Nations Report

Manitoba First Nations COVID-19 Pandemic Response Coordination Team

PRCT Daily Bulletin

Assembly of Manitoba Chiefs

Manitoba Keewatinowi Okimakinak

First Nations Health and Social Secretariat of Manitoba

Keewatinohk Inniniw Minoayawin

First Nations citizens on and off reserve can share their COVID-19 rapid test results by calling 1-833-639-2068 or online at fnhssm.com

There is now an infant COVID-19 vaccine available for children aged 6 months to 4 years in each community. Call your Nursing station or Health Centre for more information.

Date: February 16, 2023

This summary report is intended to provide daily high-level analysis of COVID-19 testing and disease in First Nations people living in Manitoba. The last daily report provided was on **February 2, 2023**. These numbers do not include all Rapid Antigen Tests positive results so numbers reflected below are an undercount of COVID positive cases. Please note that some of the new cases include data from cleaning up the data entry backlogs.

- Total FN cases: 41,443
- On Reserve: 24,977
- Off Reserve: 16,446
- Percentage of total MB population: 27%

- There are 2 new deaths to report today:**
- A Male in his 80s from Interlake-Eastern RHA
 - A Female in her 70s from Interlake-Eastern RHA

Epidemiologic Curve - First Nations COVID-19 Epidemic Curve by RHA

6

Compared to last report
10%

% of FN total of overall MB population

For the purposes of this report, First Nations people are identified through a variety of mechanisms. This is because not any one method generates a complete list of the First Nations population in Manitoba. The mechanisms used are:

- PHINs of cases and tested individuals are matched up to Status First Nations in the Indian Status Registry - ISR. This list is current as of June 2020.
- Self-report in the course of the COVID case investigation.
- Manual review of familial linkages identified in the course of COVID case investigations. Linkages are made by reported relationships, shared last names or addresses, and only counts horizontal- sibling - or downward - offspring - linkages.

Data corrections or updates can result in case records being removed and/or updated and may result in totals different from past publicly reported case counts.
