

Long COVID / Post COVID-19 Condition

Resources Available
in Winnipeg

Services Available Without a Prescriber Referral

- The resource table below lists services that can be accessed without a referral from a healthcare provider. These services may be in person, by telephone, or virtual.
- As services for Long COVID increase there may be more resources available than listed here.
- If you are looking for programs or services by a specific provider near you, refer to the private practice directories for occupational therapists, physiotherapists, and clinical psychologists (see back or next page).

Note: Fee-for-services charges may apply. Contact your healthcare insurance provider for coverage information if applicable.
